

TESTIMONIAL FROM JOHN DOLAN, HEAD OF LIBRARY POLICY,
MUSEUMS, LIBRARIES AND ARCHIVES COUNCIL

2nd May 2008

Working with Healthlink

MLA has worked with Health Link over three years developing jointly the Patient Choice pilot project through which people were able to make their personal choices for healthcare with the facilities of the public library and the support of trained staff.

Working with Health Link has been a very positive experience. We found an agency that understood the fundamental values of the public library service, providing a place of authoritative information and support and are able to envisage and realise new opportunities that were to the benefit of ordinary citizens.

Health Link's style and approach is enthusiastic, imaginative and reliable representing the best of the commitment and skill in the 3rd sector.
